## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang (US 6,175,922).

Regarding claim 1, Wang teaches a portable communications device (see fig. 2; item 200 (PEAD)) comprising communication means (see fig. 6B, item 662, Infrared Transceiver) for communicating with a second device (see fig. 2, Requesting Device 202 of the Electronic Transaction System 102), and identification means (see fig. 4, user Identification Data 410), separate from the communication means, the identification means arranged to provide information on the portable communications device (see col. 5, lines 14-29), wherein the information from the identification means is obtainable by the second device (see col. 5, lines 14-29), and in use, is used to establish

communication between the communication means and the second device (see col. 5, lines 14-39).

Regarding claim 2, Wang teaches a portable communications device as claimed in claim 1, wherein the identification means comprises a bar code (see col. 19, lines 41-49).

Regarding claim 3, Wang teaches a portable communications device as claimed in claim 2, wherein the bar code is arranged on the exterior of the communications device (see col. 19, lines 41-49).

Regarding claim 4, Wang teaches a portable communications device as claimed in claim 2, wherein the bar code is arranged to be displayed on a display of the communications device (see col. 11, lines 54-67; col. 12, lines 1-6).

Regarding claim 5, Wang teaches a portable communications device as claimed in claim 1, wherein the identification means comprises a radio frequency tag (see fig. 4, item 410).

Regarding claims 6 and 7, Wang teaches a portable communications device as claimed in claims 1 and 6 respectively, wherein the magnetic data carrying arrangement comprises a magnetic strip (see col. 5, lines 4-13).

Regarding claim 8, Wang teaches a portable communications device as claimed in claim 1, wherein the information provided by the identification means comprises one or more of the following: Identity of the device; address of the device when the communication means are used; and identity of the user (see col. 5, lines 30-39).

Regarding claim 9, Wang teaches a portable communications device as claimed in claim 1, wherein the device is one of the following devices: point of sale device; ticket gate device; and information kiosk (see fig. 2, item 102).

Regarding claim 10, Wang teaches a portable communications device as claimed in claim 1, wherein the established communication with the second device is a wireless link (see col. 5, lines 4-14).

Regarding claim 11, Wang teaches a portable communications device as claimed in claim 10, wherein the wireless link is a high frequency link (see col. 5, lines 4-14).

Regarding claims 12 and 13, Wang teaches a portable communications device as claimed in claim 11 wherein the wireless link is a high frequency Bluetooth link (see col. 19, lines 49-52).

Art Unit: 2682

Regarding claim 14, Wang teaches a portable communications device as claimed in claim 10, wherein the wireless link is an infrared link (see col. 19, lines 49-52).

Regarding claim 15, Wang teaches a portable communications device as claimed in claim 1, wherein the communications device is a mobile telephone (see col. 10, lines 46-60).

Regarding claim 16, the claim has the same limitations as that of claim 1, therefore claim 16 is interpreted and rejected for the same reasons set forth above and in the rejection of claim 1.

Regarding claim 17, the claim has the same limitations as that of claim 1, therefore is interpreted and rejected for the same reason set forth in the rejection of claim 1.

Regarding claim 18, Wang teaches a method as claimed in claim 17, wherein the second device comprises a portable communications device (see col. 15, lines 20-40).

Regarding claim 19, the claim has the same limitations as that of claim 15, therefore is interpreted and rejected for the same reason set forth in the rejection of claim 15.

***Response to Arguments***

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MINH D DAO whose telephone number is 703-305-5589. The examiner can normally be reached on 8:30 AM - 5:00 PM.
